SUMMARY

Final-year Digital Media Technology student specializing in game development, with experience using Unreal Engine and Unity. Skilled in gameplay programming, combat systems, enemy AI, 3D modelling, and animation, with a strong interest in pursuing a career as a Game Developer or Gameplay Programmer.

EDUCATION

Xiamen University Malaysia **September, 2023 – Present**

Bachelor of Engineering In Digital Media Technology (CGPA: 3.64)

Achievements:

- Dean List 2025/04 semester (GPA: 3.75)
- Dean List 2026/04 semester (GPA: 3.90)

SKILLS

Language:

- English - Fluent | Indonesia - Native | Chinese - Intermediate

Hard Skills:

- Programming (C++, C#, Unreal Blueprint)
- 3D Modelling, Sculpting, Animation (Blender, Maya, ZBrush, Substance Painter, Cascadeur)
- Design (Canva, Adobe Photohop, Adobe Illustrator)
- Game Development (Unity 6, Unreal Engine 5)

Interests: AI Automation, Blockchain Technology, Crypto Investment

Soft Skills: Self Learning, Communication, Adaptability, Time Management, Team Collaboration, Leadership

WORK EXPERIENCE

Research Development Assistant **July, 2026 – Present**

- Assisted PhD research in developing a mixed reality application for an interactive museum experience showcasing cultural artifacts from Johor.
- Created and optimized 3D artifact models in Blender for integration into the application.
- Designed and implemented the project's user interface in Unity, including the main menu, tutorial, dashboard, and interactive game sections.
- Developed a "Guess the Silhouette" mini-game where users identify artifacts based on the silhouettes of 3D models.
- Developed an "Arrange the Process" mini-game where users organize the correct sequence of steps involved in traditional batik production.

XMUM Student Helper | XMUM Administrative Office **March, 2024 – Present**

- Managed the receiving, data entry, sorting, organization, and tracking of student parcels to ensure accurate and efficient parcel handling.
- Assisted students with parcel collection by verifying recipient information, locating parcels, and maintaining organized daily collection operations.

EXTRACURRICULAR ACTIVITIES

Makrab GADPA — Designer & Game Master **May 2024 – Oct 2024**

- Designed Instagram posts and sponsor promotional materials for an Indonesian student orientation event.
- Contributed to the production of a cinematic event trailer using Blender.
- Served as a Game Master during the event, coordinating activities and assisting with game execution.

Start Up Street — PGVG **July 2024 - December 2024**

- Produced committee portraits and captured event photos and videos for social media and documentation.
- Contributed to the event trailer and assisted in editing the event recap video.

XMUM Orientation — Design Committee **Jan 2025 – May 2025**

- Designed the event's Instagram feed, visual identity, and official logo.
- Supported event operations, including food distribution, game testing, and general event coordination.

Digital Pickleball — Technical Team, AI Club **Jun 2025 – Nov 2025**

- Developed core gameplay systems in Unity, including paddle movement and ball physics.
- Implemented UI and game-flow systems, including the main menu, in-game interface, scoring system, and win screen.
